

# Reaccoon user guide

**Welcome, dear user !**

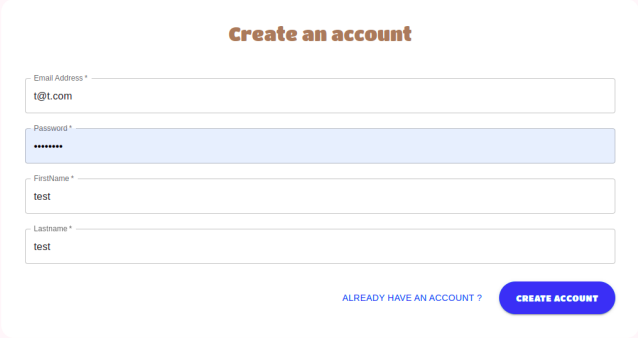

**In this guide you will learn all that you have to know to properly use Reaccoon app.**

**This is the main page, you can either Sign In if you already have an account or Sign Up if you want to create an account.**

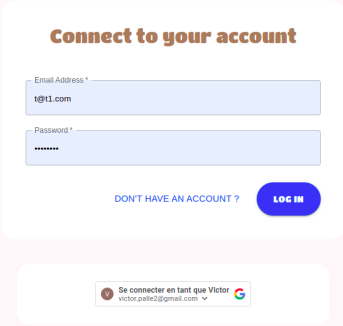

## **Log in / Register**

**To create an account just hit Sign Up and you'll see this page where you can create your account :**

The image shows a 'Create an account' form on a light pink background. The form is a white rounded rectangle with the title 'Create an account' in bold brown text at the top. It contains four input fields: 'Email Address \*' with the value 't@t.com', 'Password \*' with masked characters '\*\*\*\*\*', 'Firstname \*' with the value 'test', and 'Lastname \*' with the value 'test'. At the bottom right, there is a blue button labeled 'CREATE ACCOUNT' and a link 'ALREADY HAVE AN ACCOUNT ?' in blue text.

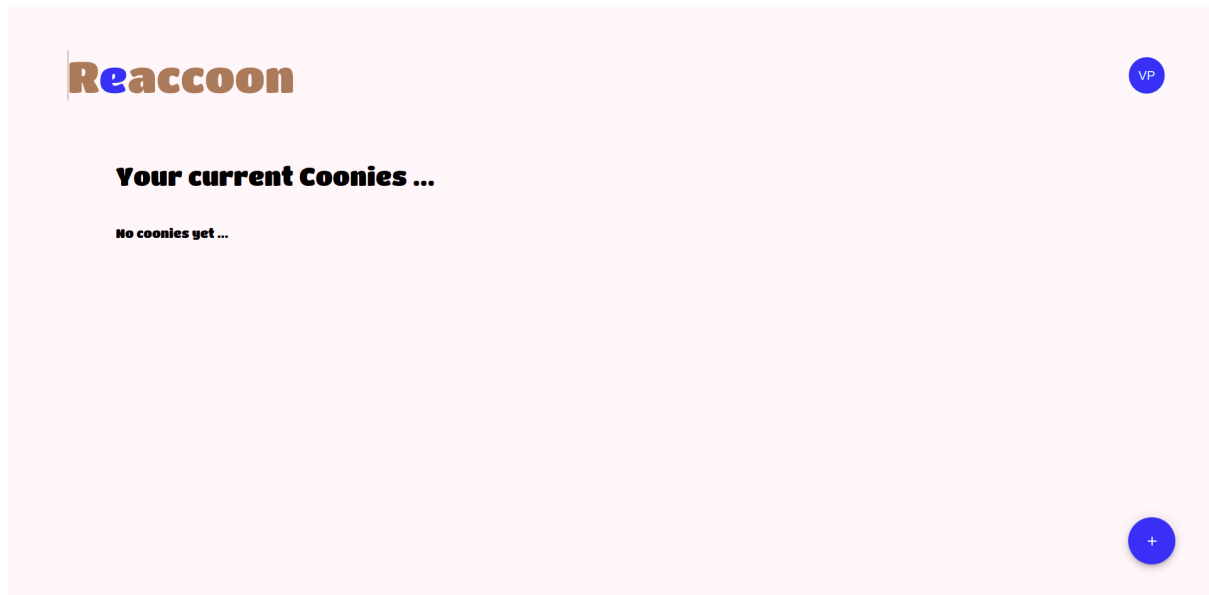

**If you hit Sign In you'll see this page where you can log in with your email and password or even log in with google oauth :**

The image shows a 'Connect to your account' form on a light pink background. The form is a white rounded rectangle with the title 'Connect to your account' in bold brown text at the top. It contains two input fields: 'Email Address \*' with the value 't@t1.com' and 'Password \*' with masked characters '\*\*\*\*\*'. At the bottom right, there is a blue button labeled 'LOG IN' and a link 'DON'T HAVE AN ACCOUNT ?' in blue text. Below the form, there is a separate white rounded rectangle containing a Google OAuth button with the text 'Se connecter en tant que Victor' and 'victor.palied@gmail.com' next to the Google logo.

## Create area

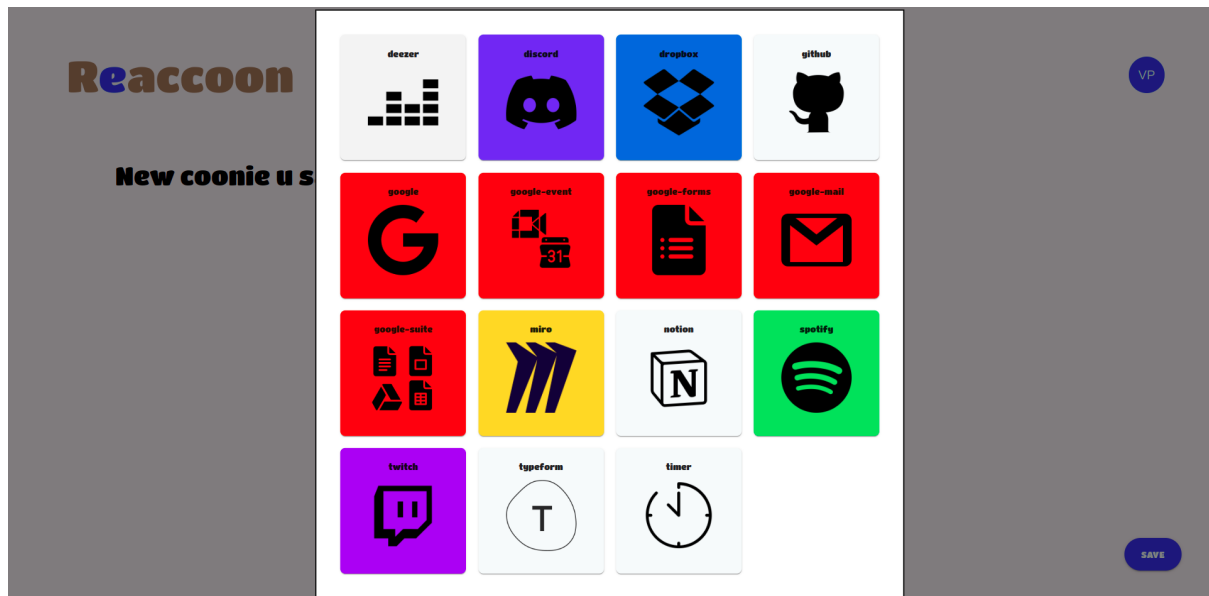

**Once you are logged in, you'll see this screen where all the area you have previously created.**  
**Here you can add a new area by clicking on the bottom-left plus button :**

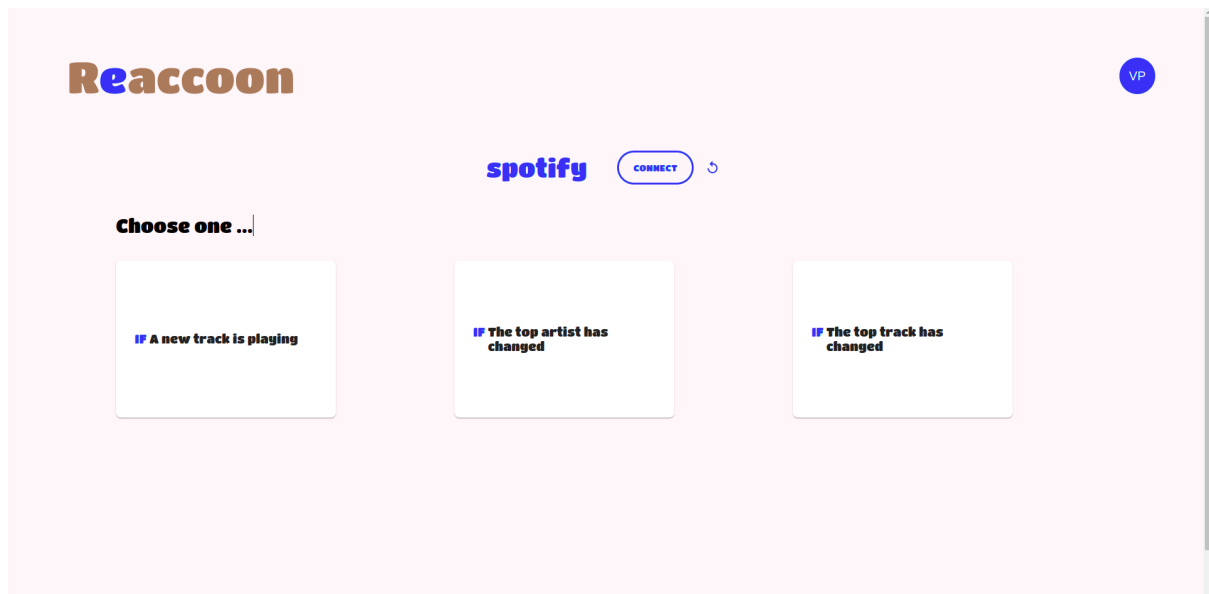

**You can add an action by clicking on the plus button in the "if" box :**

**You'll see a modal containing all the service you can access to create your action :**

**You'll see a screen with all the available actions of the service you just chose. To select an action you first need to authenticate to the service with oauth connection. Once you are connected, you will be able to choose one action :**

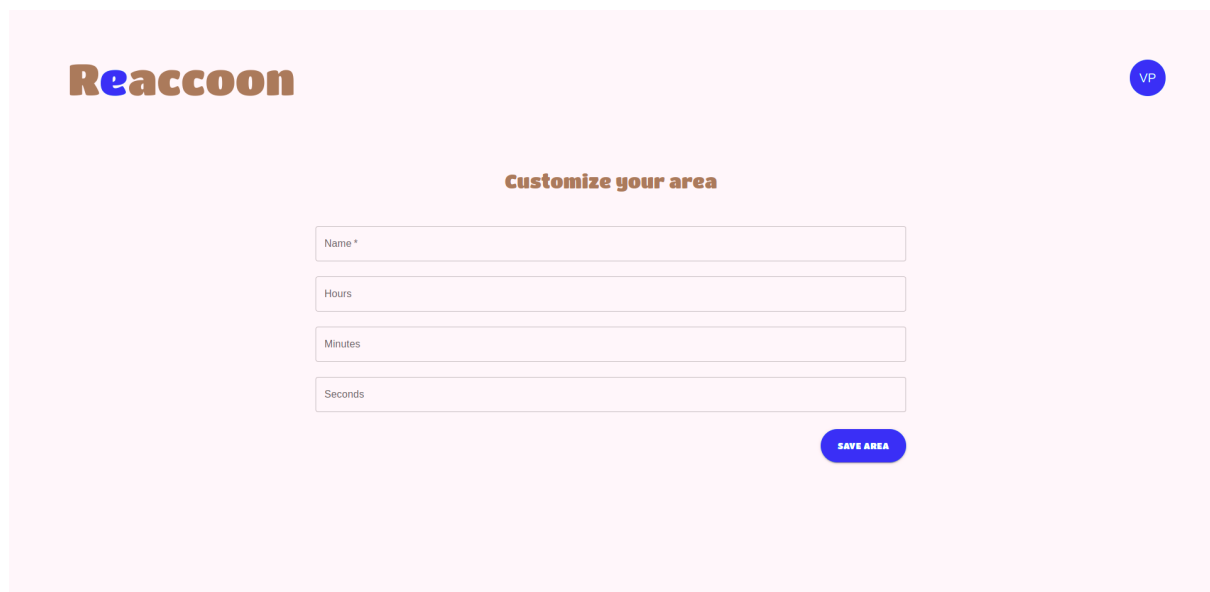

**To add an a reaction you can now click on the “add then” button :**

The screenshot shows the Reaccoon application interface. At the top left is the 'Reaccoon' logo. In the top right corner is a blue circular button labeled 'VP'. Below the logo, the text 'New coonie u said ?' is displayed. The main area contains two stacked boxes: a brown box labeled 'IF' with the text 'spotify A new track is playing' and a plus icon, and a blue box labeled 'then' with a plus icon. A vertical line connects the two boxes. Below these boxes is a blue button labeled 'ADD THEN'. In the bottom right corner, there is a blue button labeled 'SAVE'.

**It is now the same process as adding an action. Once you are satisfied with the action and the reactions you have chosen, you can hit the save bottom-left “Save” button.**

**You will now be able to customize your area. First by giving it a name. Then, you can choose the interval time in seconds minutes and hours in which the application will check the state of your action :**

The screenshot shows the Reaccoon application interface for customizing the area. At the top left is the 'Reaccoon' logo. In the top right corner is a blue circular button labeled 'VP'. Below the logo, the text 'Customize your area' is displayed. The main area contains four input fields: 'Name \*', 'Hours', 'Minutes', and 'Seconds'. A blue button labeled 'SAVE AREA' is located at the bottom right.

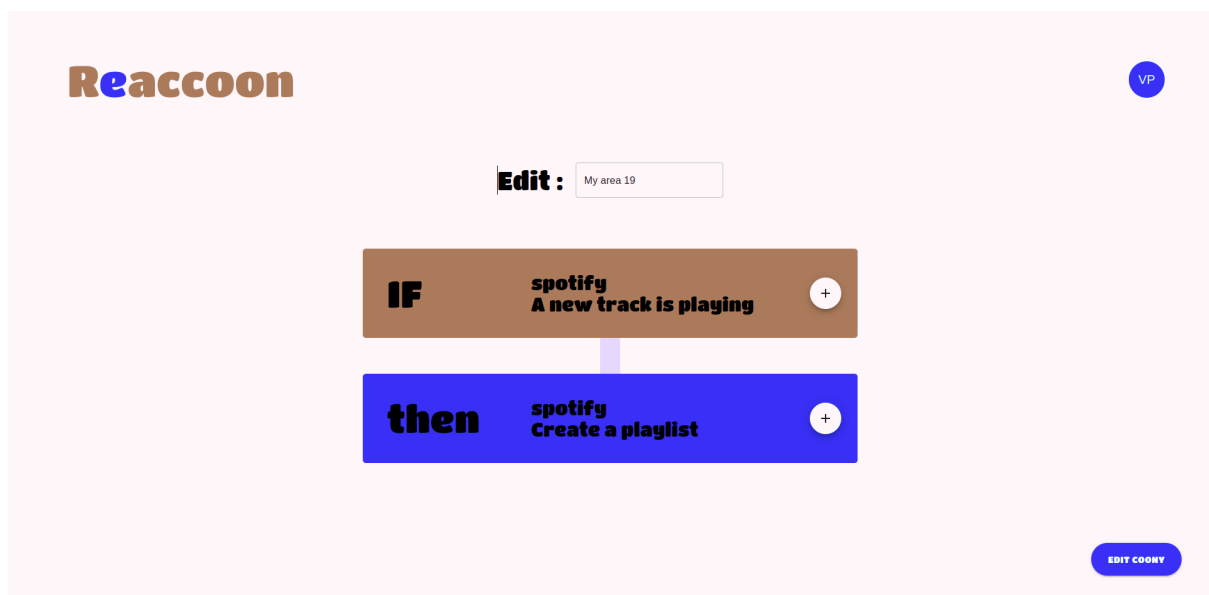

**Press "Save area" to create your area, and that's it !**

## Edit area

**To edit the area you just created, just click on the "Edit button" at the bottom-left of the area card.**

**You will now be able to modify the action or reactions of your area. You can also modify its name.**

## **Log out**

**You can log out of your account at any moment, by clicking the top-right button of your profile and click the log out button :**
